NOBODY Operation Proposal

Proposal ID: P4
Proposal Status: Approved
Proposal Name: Financial Redaction Justification Proposal
Proposed By: 7411

Proposal Explanation

This Proposal aims to expand upon P3, by making sure financial transparency does not "spoil" any projects, or reveal secrets about projects in-progress that are not yet meant to be revealed. With this, Financial Reports would still be publicly visible, but the subject money was spent on could be redacted to avoid revealing secrets and/or spoiling projects.

I.e. reports could read ██████ - [sum] instead of revealing the subject of the purchase (I.e. [item] - [sum])

Proposal Justification [IF APPROVED]

Proposal was approved by 7411 **under the justification:**
Being able to redact certain information in financial reports is important, as stated in the explanation, so certain information would not be revealed too soon. This Proposal helps to retain financial transparency, but to also make sure no project is ruined by the transparency.

Proposal Rejection Reasoning [IF REJECTED]
